

# **Disability Etiquette and Hospitality**

Office for Persons with Disabilities & the Deaf Apostolate Archdiocese of Philadelphia

## PHYSICAL/MOBILITY

- Ask about preferred location for seating.
- Speak to the person in the wheelchair and not to the person that may be accompanying them.
- Be eye level with person in wheel chair when talking to them.
- Always ask before offering help. Don't be offended if the person says no.
- Shake hands and use other usual ways of greeting never pet anyone on the head.
- Ask before assisting to push or touch a person's wheelchair.
- People with canes or crutches do not always prefer to use a ramp over stairs.
- Don't touch/grab the arms of those who use canes/crutches. Ask if you can assist in any way.
- A person with respiratory or heart condition may have difficulty walking long distances. Offer a place to rest before ushering to seat.

### **BLINDNESS/PARTIALLY SIGHTED**

- Prearrange tour of church with audio description.
- Identify yourself and your role (I am the greeter/usher).
- ► Ask person "Would you like assistance?" Offer your arm. Describe the scene.
- Walk on the opposite side of a guide dog.
- Don't touch person's cane or guide dog.
- Give verbal cues "there is a step coming up..."
- ► Give verbal cues that are specific (e.g. Don't say "watch out", say "there is a trash can in front of you...")
- Guide an individual's hand to a banister or the back of a chair to help direct him to a stairway or seat.
- Inform person who is blind and attends church regularly of any physical changes.
- Offer large-print or brailed bulletins and large-print prayer books and hymnals.
- Establish before Mass if person would like accommodations for Communion (e.g. Eucharistic Minister to come to them, sighted guide).

### **DEAF/HARD OF HEARING**

- □ Using someone who knows sign-language is not an adequate replacement for an interpreter.
- □ Does the individual prefer to use sign language, writing, gesturing, speaking or a combination of all to communicate.
- □ To get the attention of a person who is deaf/HOH you can tap them on their shoulder, wave you hand or flicker the lights.
- □ Do not shout to a person who is wearing a hearing aid. Your shouting will be more distorted. Move closer to the individual.
- □ Face person directly when speaking and do not obscure your mouth when communicating.
- □ When using a sign-language interpreter, look directly at the person who is Deaf, and maintain eye contact. Talk directly to the person who is Deaf.
- □ Background noises are a problem for people who are HOH. Finding a quiet place is helpful.
- □ Don't be afraid of interaction. There is nothing worse than being left out and ignored.
- □ Offer assisted listening devices if available; have a note pad and pen available.

### **SPEECH DISABILITIES**

- ✤ Ask person to repeat themselves if you can't understand.
- ✤ Wait for the person to finish then restate to be sure you understand.
- Suggest another way of facilitating communication.
- Don't nod to a person you can't understand.
- Don't interrupt or finish a person's sentence.

### INTELLECTUAL DISABILITIES

- ✓ Greet person normally with age appropriate language. Don't baby talk.
- ✓ Repeat information about yourself if necessary.
- ✓ Rephrase, rather than repeat, sentences that the person doesn't understand.
- $\checkmark$  Treat people equally.
- ✓ Even if you suspect a person doesn't read, offer reading materials.

### **BEHAVIORAL NEEDS**

- > Create a space for parishioners to go in order to de-escalate challenging behaviors.
- Greet person by name when possible, gently converse but don't force conversation.
- Listen and respond but don't argue. Wait for rational moments.
- > Ask how you can help, find out if there is a support person who can be sent for.
- Ask what will make him/her most comfortable and respect his/her needs to the maximum extent possible.
- Remember that these behaviors are just as stressful for parents and family members. Engage family in conversations related to best strategies and natural supports at a time and manor that conveys empathy and understanding.

### MENTAL HEALTH

• Be sure to greet.

- Give your name and ask theirs but respect boundaries.
- Offer to sit with or near but respect wishes to be alone.

### OTHER TIPS

• Gestures often convey acceptance. Sit next to person with disability but respect boundaries.

• As an usher or greeter, please respect person's needs and request whenever possible.

• Don't make decisions for people with disabilities regarding what they can or can't do.

• A person who may appear drunk or sick may have a disability or medical emergency.

Sometimes, the disability isn't obvious, as in the case of some intellectual/developmental disabilities or mental illnesses.

If you observe behavior that you don't understand, it is good to remain aware for possible need of assistance and be nonjudgmental.
